

Developing countries

EDUCATION
Why do they improve their education?
X

SANITATION
How would they improve sanitation?

X To what extent do developing countries increase in rising secondary industries?

INDUSTRIE

POLLUTION
Why do they produce more pollution?

increase in population
|
rising secondary industries

more access improve
rising secondary industries

more tertiary industries

decrease in primary

increase in current balance account

social, economics, in general
STABILITY

developing health care

increase in
GDP

How do developing countries increase in GDP?

DISASTERS

TRADE
rising education
|
through trade

X How does trade influence the development of the country?

RESOURCES
abundant

RIGHTS
How do rights influence the development of the country?

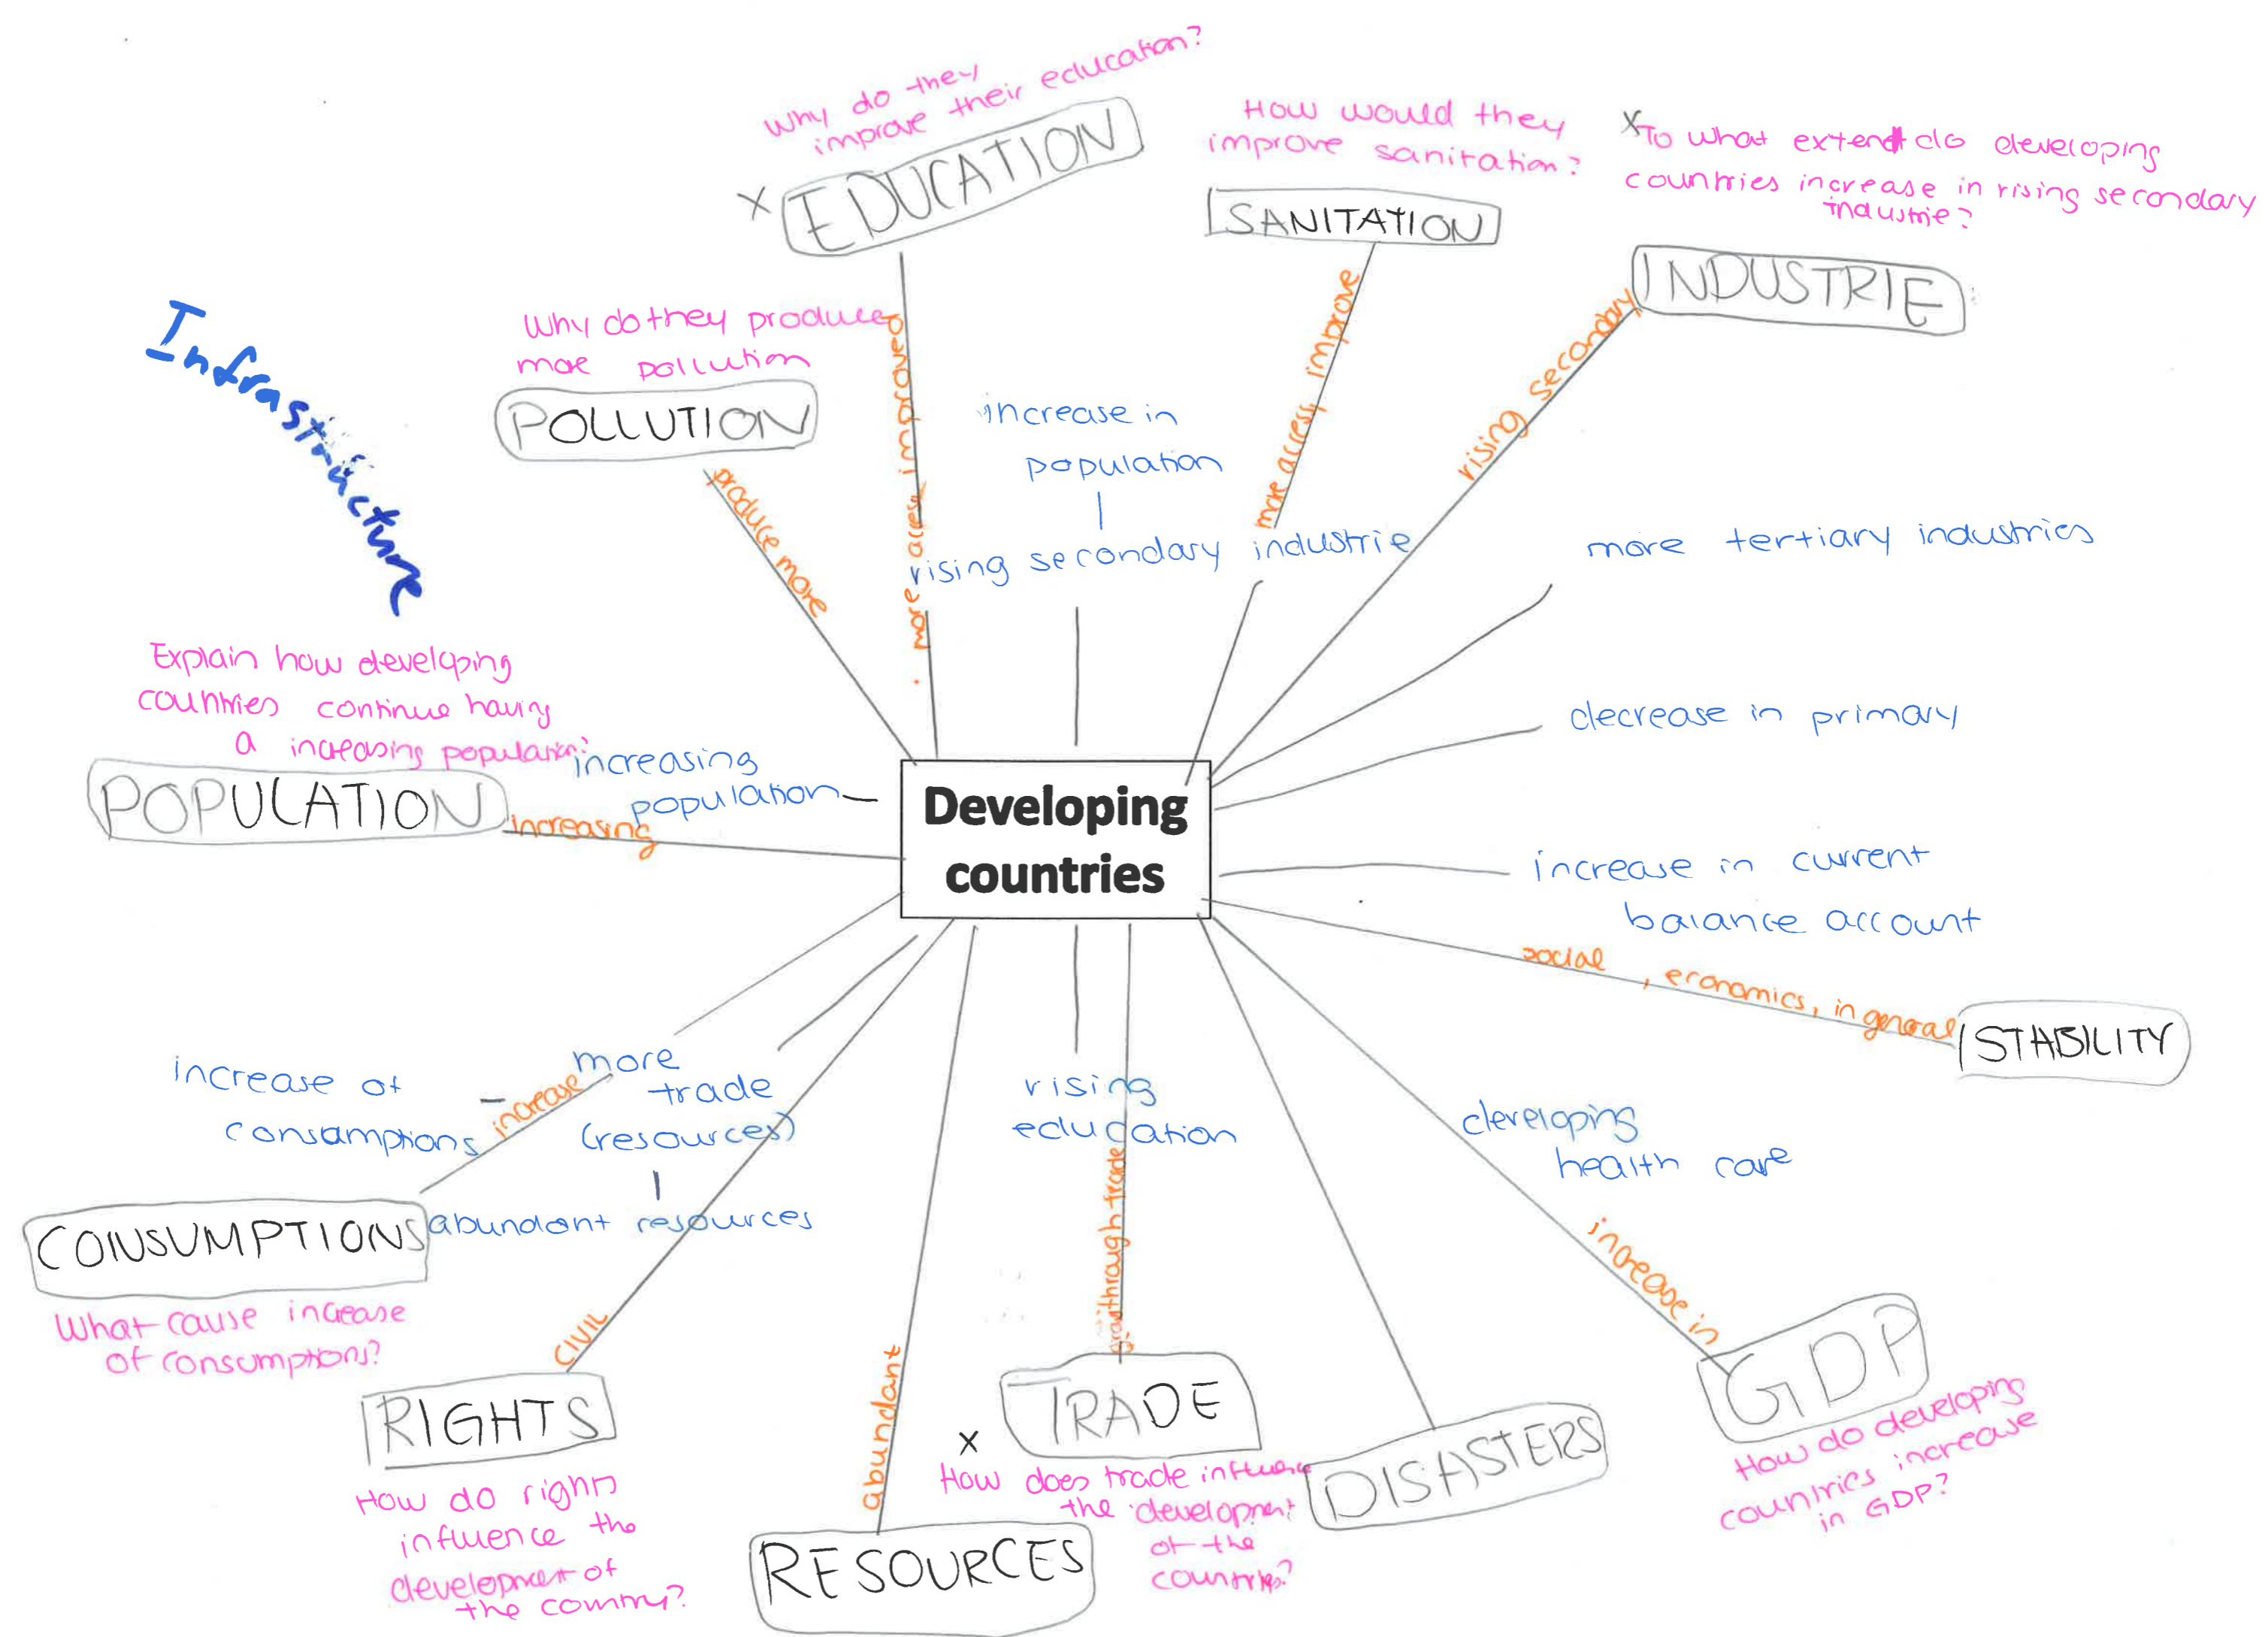

CONSUMPTIONS
increase of consumption
|
more trade (resources)
|
abundant resources

What cause increase of consumption?

POPULATION
increasing population
|
increasing population

Explain how developing countries continue having a increasing population?

Infrastructure

Least developed countries

family size

high birth / death rate

have a smaller shelter

why do they have a smaller shelter

have lower access to

why do they have lower access to

has more problems with climate such as

has a bigger

population

population

Poverty

Increase

Famine

why do they are more prone to several

Diseases

lower health

Safety

has a lower

lower life expectancy

why do they have a higher

crime rate

higher dependency ratio

why do they have a higher

why do they have a higher

lower standard of

Sanitation

Sanitation

why do they have a lower

aim to improve have a lower

economy stability

lower income per person capita

Developed countries

More healthcare access.

Why is there an easier access to healthcare?

Less gender inequality

Why is there less gender inequality?

Good infrastructure

How is good infra related to dev.?

Ageing population

↳ low birth rate / high low birth rate.

Why is the population aging?

Tertiary industries

Why is the main industry tertiary?

More trade

sell

More luxury goods

Why is there a higher demand of luxury goods?

sell more

engage in more

have easier

are more aware and put more effort in educating

are developing high-tech

Stable economy

has a more stable

Higher standard of living

What is influencing the signif. living standard?

have a significantly higher

Some sort of military

put more efforts in

More consumption

How does more consumption affect the trade of the country?

partake in more have more awareness and methods to decrease pollution

Less people per doctor

Why are there ...?

Less pollution

Why is there a lower population
